Download the trial version of the software from <https://www.tadasusah.com>

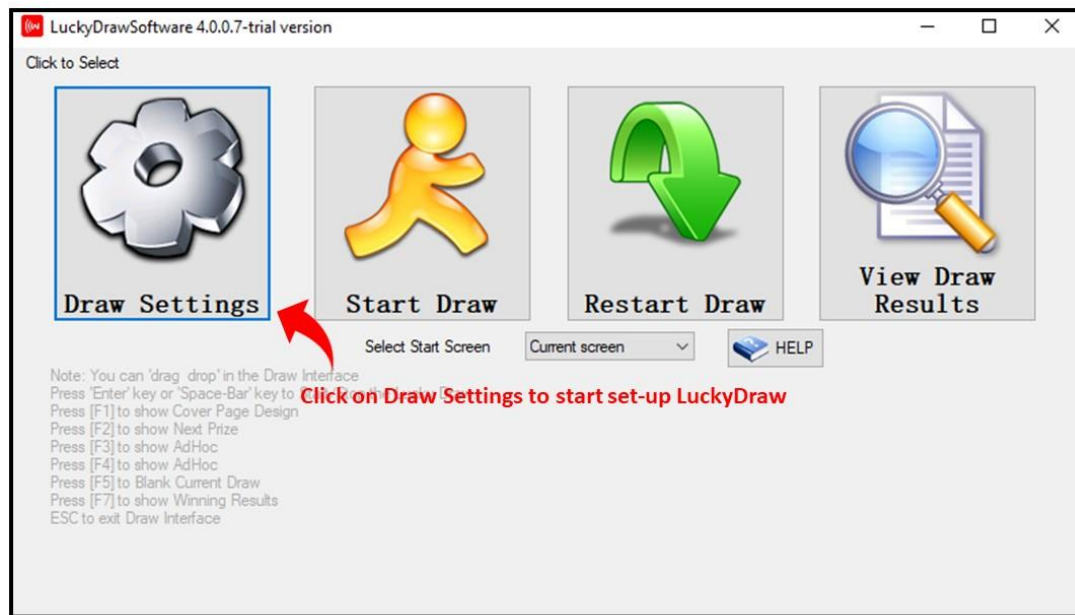

1. Download ZIP file
2. Extract ZIP file to a folder (Note: Do not place on desktop)

3. Double-Click on LuckyDraw Software.exe. It must be run in the folder itself.

4. Click on Draw Settings to set all settings for the LuckyDraw

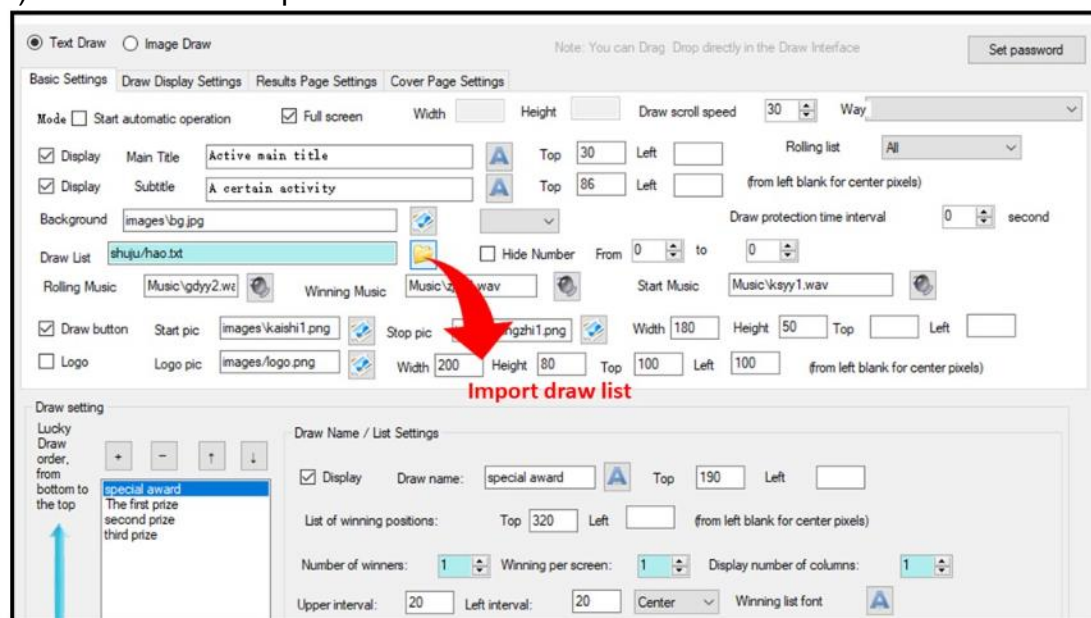

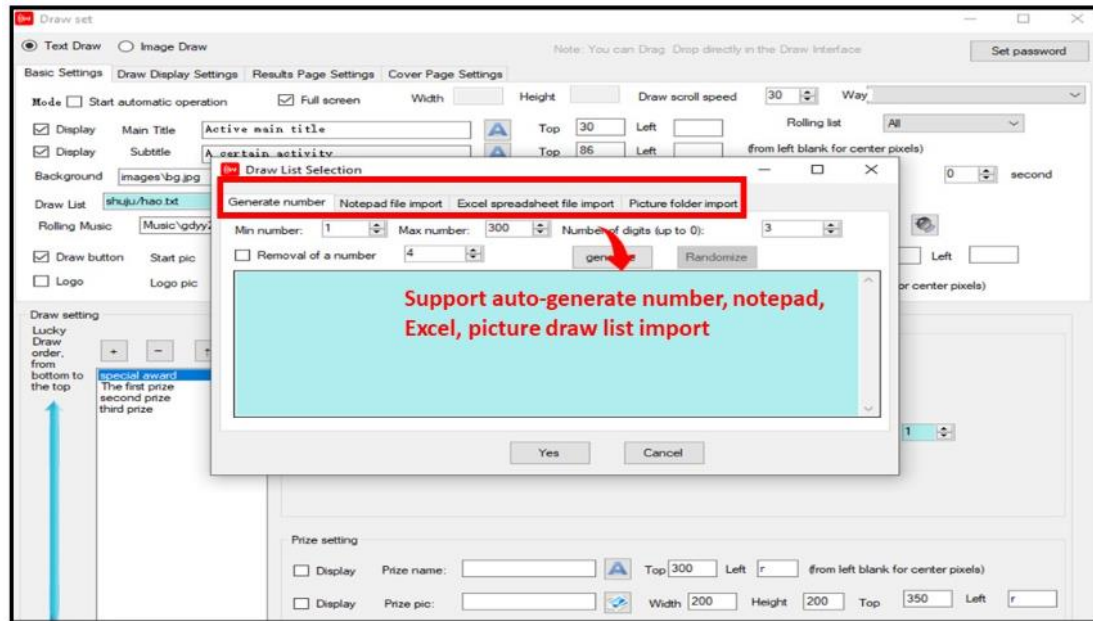

5. For a Quick Start or setup a Lucky Draw, click on Set Draw Note: "Draw List"

- the list of participants in a Lucky Draw

You can quickly setup a Basic Settings - Draw List by

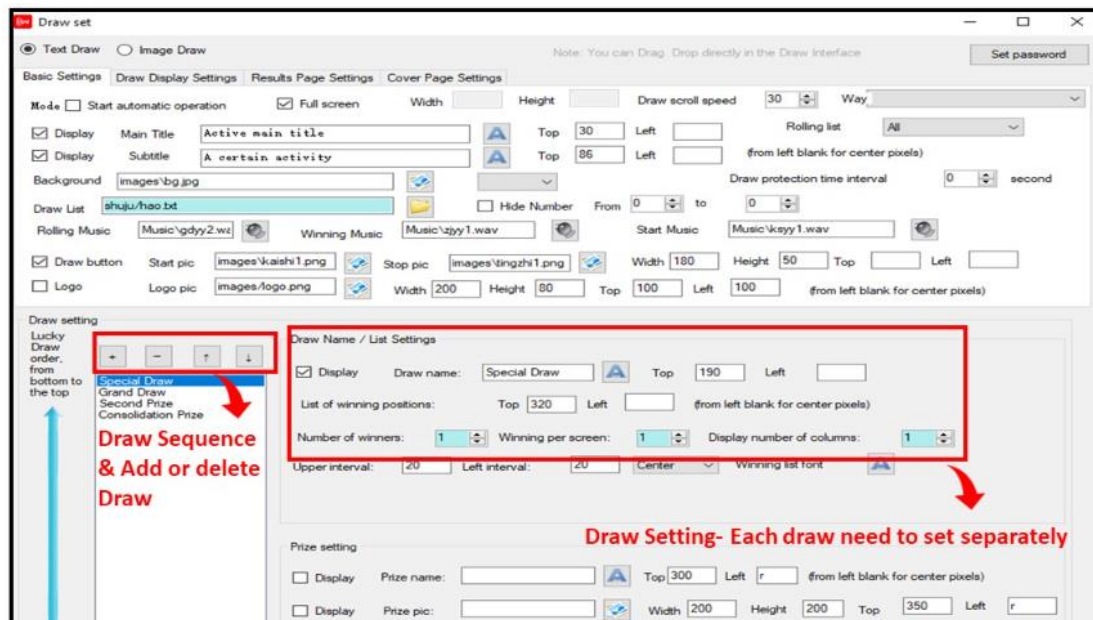

- Generate Numbers
- Import Name/Number from Notepad
- Excel Spreadsheet File Import
- Picture Folder Import

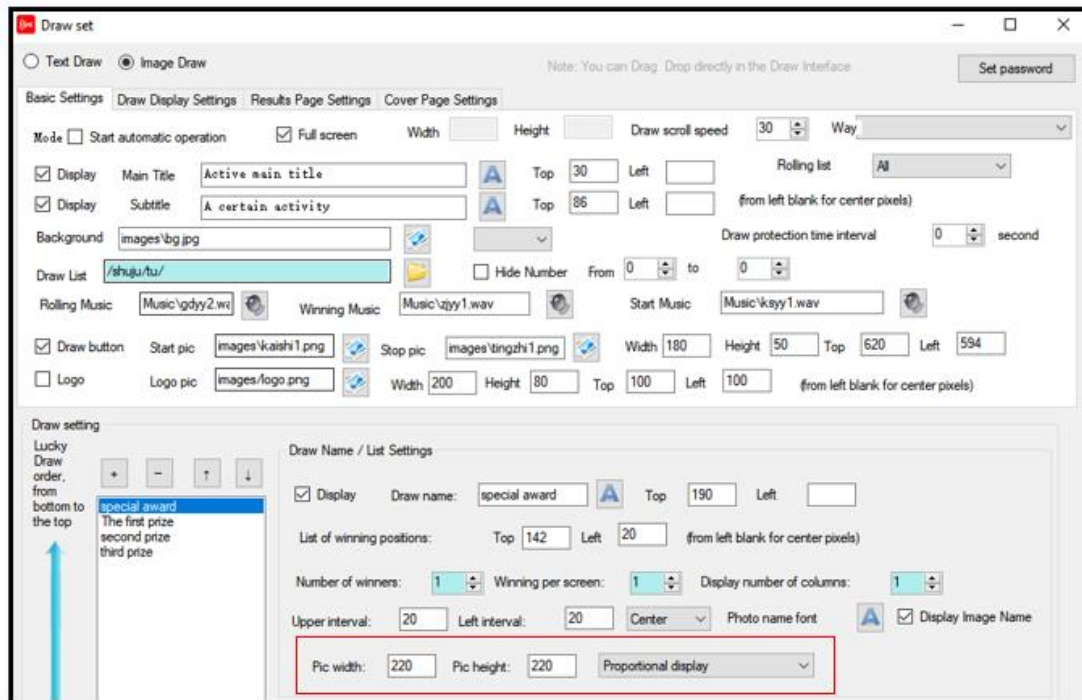

6. Now quickly setup the Draws and Prizes for the Lucky Draw. For this settings, you would need to define the "Draw Settings"

- a) how many prizes
 - b) how many draws
 - c) how many prizes per draw
- Prize Settings
- a) display prize name
 - b) display prize picture

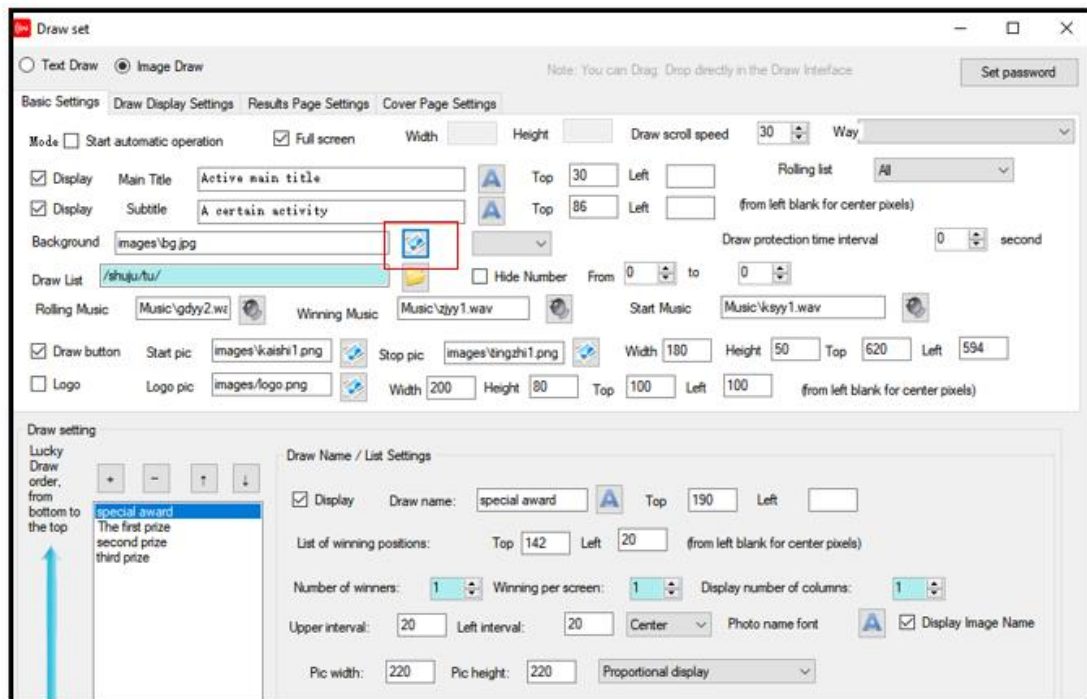

7. If you are running an Image Draw, setup the Picture Drawing size settings.

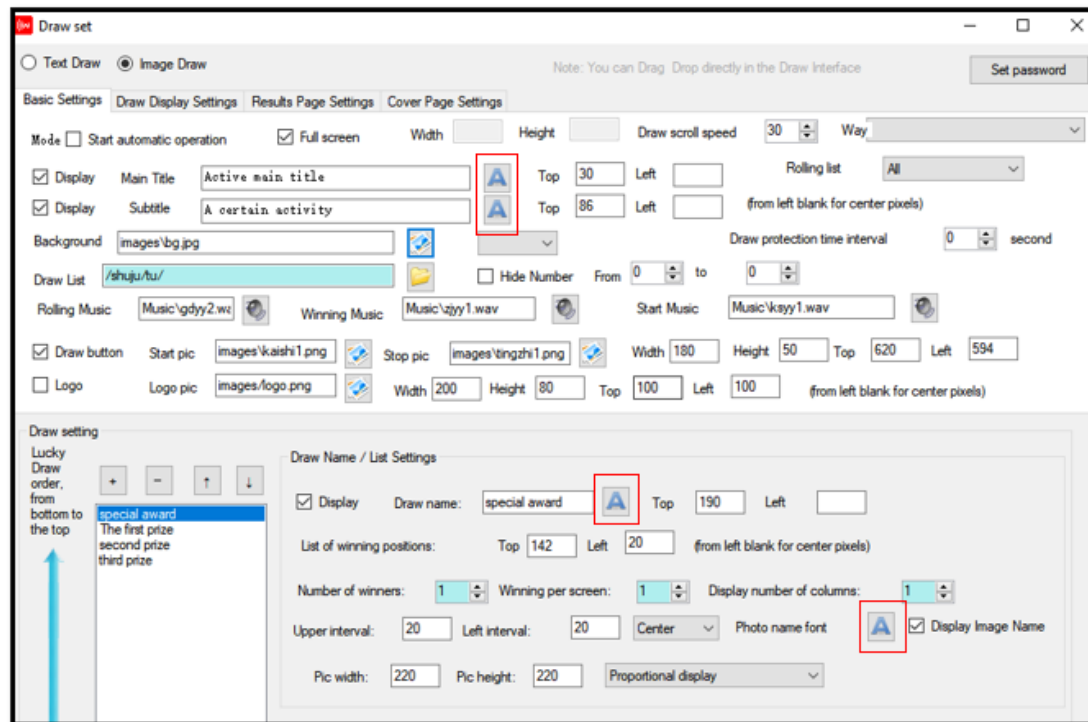

8. Setup your background image settings using the images included or import in your own image.

(default images are located in the image folder that comes with the software)

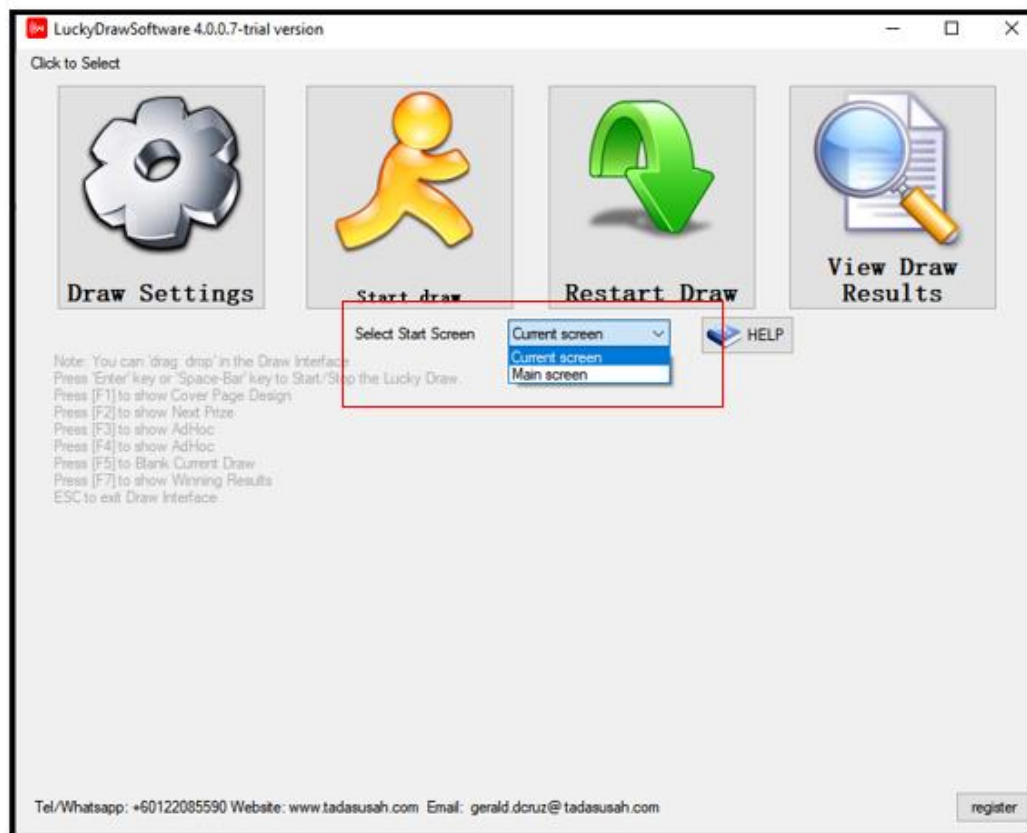

9. Select the Font and its Size and Color settings
(font will depend on the fonts installed in your PC/Notebook's Windows)

10. Once done, there is **no need to save the settings**, these are auto-saved.
Now go back to the Main Selection and click on Start Draw.

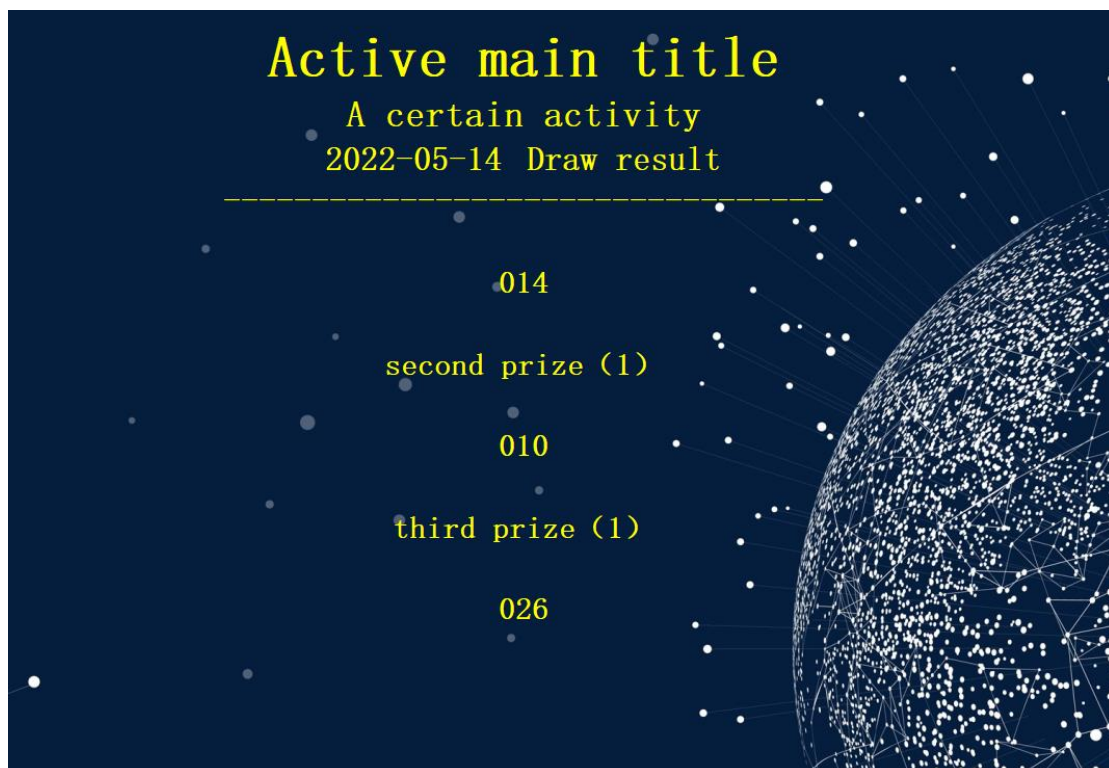

11. You can set the Luck Draw screen to the Current Screen or Main Screen (your 2nd video output on your laptop - HDMI out).

10. Start Draw. The positioning of the Titles, Logo, Draw List, Image Draw, Button Position can all be repositioned using simple 'Drag and Drop'. Customize it to your liking as much as you want making each draw unique.

12. At the end of the draw, the LuckyDraw Results can be displayed based on your results settings.

13. You can also Export your LuckyDraw Results to Excel.
